### Here is how we will change the industries to smart Industries

#### **Time Attendance System with Face Id's**

AHALTS Multi Device, Multi mode, Multi location , Geo fenced global time and attendance feature allows the Manufacturing teams to mark their time and attendance from the multiple access control devices or on their mobile app . The time sheets pass through a real time audit and flow to the payroll and activity services .

#### **Cognitive Work Load And Scheduling with continued shifts and overtime**

The industrial Sector has a very dynamic work load changing every moment. The current legacy systems cannot handle these scenarios and hence the HR teams are always struggling to manage these workloads and these are so complex that its practically becomes impossible to get a optimal scheduling and rostering. HRSERP breaks the work into activities and cognitively gives a tuning index for the HR Team to tune the workforce with a work load You can grasp the work information of each worker, understanding the operation of the human resources of the organization, prepare and introduce the work of the staff in advance, and improve the work efficiency.

Here is how we will change industries to smart Industries

### **Real-time tracking Transportation and Goods Vehicles Monitoring**

AHALTS provides a seamless Transportation and Goods Vehicles Monitoring tracking system and is real time

### **Ticket Management**

Ticket Management to handle your complaints logged in the system After a Complaint ticket enters your company's system, it passes through multiple points before reaching its resolution. This bring more efficiency in the entire system.

### **Seamless employee Payroll and Benefits**

Set-up or upgrade your business with modern payroll, benefits, compliances , Loans and HR. Our solution gives you end to end solution for Cognitive Time Sheet Audit Check . One click Loans, Compensation, benefits & Taxation, Performance Linked Increment Tool, Compliances, instant insurance and Data analytics

### **Complete HR Management**

HRSERP is our global enterprise application delivered in the cloud that unifies strategies, human resources, benefits, talent management and most important Workload Balancer.

Here is how we will change industries to smart Industries

### Touchless Covid Compliant Access Control System

A whole set of access control system includes front access control, card reader, electronic control lock, door switch, door button and emergency break glass button.

It is mainly installed at the entrances to prevent unrelated person from entering through set different parameters and permissions to improve the security.

### IIOT devices for energy saving and industrial use

Complete IOT platform that controls the devices in the factory and can be used for many industrial purposes to save time and increase productivity in the unit

### Machine access through facial Recognition

Sometimes a wrong person can spoil the whole show we can install the facial recognition devices with the machine so this cannot be accessed by a non authorized personnel.
